Who should attend?

The Residential Paver Technician Course is an advanced level course, designed to build upon the content of the Concrete Paver Installer Course and provide more specific instruction on advanced residential installation. The two-day course concludes with an exam. Upon successful completion of the exam, a participant receives a Record of Completion. A designation can be earned by meeting the installation experience requirement.

Why Should You Attend?

Knowledge—Industry professionals share knowledge of industry guidelines, practices and advances applicable to the construction of interlocking concrete pavement systems.

Recognition—Participants will receive a Record of Completion upon successful completion of the course and exam, and a designation is available for additional recognition.

Promotion—Paver installation training can be a powerful marketing tool for your business by further establishing your credibility as a knowledgeable installer, contractor or industry professional.

On-going support—ICPI reinforces your knowledge by making available technical literature, guide specifications, marketing support, website listings, press releases and opportunities for professional development.
